

Hello its me. Haven't you
people figured out who is killing these
little people yet. I'll give you a hint,
I used to be in San Fransisco.
I used to stalk women, but I like to
kill children now. At all my victims
bodies I have left "certain clues, but
I guess it's too much for you Rebels to
handle. So I guess I'll have to tell
you. I'll kill children because they
are so easy to "pick off". By the way,
if you still have letters from the other
murders, I am not writing in the same hand
writing.

Well you're all afraid, you're all upset
Cause none of those cops have caught me yet
I've struck again and didn't leave a clue
Now the whole city doesn't know what to do
You finally found Julie, but how about all the other
Keep looking you might find another child
You think that the number stops at nineteen
Man, there are some things you haven't seen
One night some kids got killed in a fire
I struck the match, so the death toll is higher
But you can't seem to catch me, I wonder why
Thousands of you see me everyday when I pass by
It's pathetic to know that I can get away
With first degree murder on any chosen day

With first degree murder on any chosen day
Politicians are worried as the plot thickens
Leaders running around like headless chickens
All different cops can't cooperate with the others
You'll never catch me, you stumbling mothers
Go back from the ridiculous to the sublime
And you'll find that I've been with you everytime
You'd better start looking before it's too late
Or there'll be another "50-48"
So see I leave you with this piece of evidence
You'd do something stupid, like dust it for prints

beginning "Hello its me. Haven't you . . ."

Result of examination:

It could not be determined whether the writer of the Zodiac letters in the case "ZODIAC; EXTORTION" prepared the questioned writing on specimens Q27 and Q28, because of distortion and unexplained variations .

While a definite conclusion could not be reached in this examination, some characteristics were noted which indicate that the writer of the Zodiac letters should not be eliminated as a possible suspect in the preparation of specimens Q27 and Q28.

No watermarks, indented writing or other features were found on specimens Q27 and Q28 which would be of value in determining the source of these specimens.

Specimens Q27 and Q28 were photographed and will be returned with the fingerprint report. The results of the authorship identification examination will also be furnished separately.
