Re: Wiles kidnapping case

Dear Mr. Wiles,

I have heard news reports about this young man, **your son**, who was kidnapped. I know nothing about your son, but I do know a person who may be of interest.

This person likes to maintain a very high profile and because he is not instrument rated, regularly hires pilots to charter him around the country out of the *Toledo* area and may **have** hired this young man to charter him to Suttons Bay, Michigan, Chicago, Florida and other places in 2005-2006 and perhaps during these last couple years. He is an unusually intelligent psychologist **highly** skilled in mind control and hypnosis. His name is Zubin J. Mistry.

*If this person hired your firm to charter for him*, I would be **highly** suspicious that he may be responsible for your son's kidnapping.

I can only say that this person used hypnosis and rohypnol in an attempt to defraud me of my estate, valued at just under 1 million dollars. **As** a doctor and son of a family of doctors and **lawyers**, he has access to the social security numbers, dates of birth and mother's maiden name of nearly anyone who has a health care record and has in this information on me, he was thereby able to access my financial accounts and computer. He hacked my computer and altered my trust to make himself the sole beneficiary and then poisoned me. I nearly died. If I had, he would have inherited every asset I held. Because he is a doctor, he is above suspicion and unquestioned by most everyone.

He also spends **much more** than he earns, makes bad **business** deals and tries to manipulate people out of their money to **gain** it for himself. I know he had done this to other **well** off women for financial **gain** and given that he regularly hires pilots, *if* and I want to say *if he hired your firm*, he may **have** targeted your son. If he is not a customer, I would dismiss this letter. But if he ever has hired your firm, you really need to investigate this person further.

Besides having assets he wanted, I knew way too **much** about this person I believe he didn't want me as a witness to other criminal acts he committed, and tried to kill 2 birds with one stone in targeting me.

This person is a **genius** level sociopath, into **sadomasochism**, and derives sexual fulfillment from torturing people, male or female. Please do not turn this over to the FBI unless you verify *he was a customer*. I am afraid of him and if he found out I told you about him, he would sue me, if he could, to **get** my money or just kill me. He tried more than once and he's hard to get away from.

Best of Luck finding your son.
